QA Lead

Detail-oriented QA Lead with 3+ years of experience in test automation, API testing, and performance testing. Skilled in building automated testing frameworks, creating comprehensive test strategies, and utilizing Selenium, Postman, JMeter to ensure software quality. Known for reducing testing cycle times, improving test coverage, and leveraging Shift-Left Testing methodologies. Passionate about leading teams, mentoring junior testers, and introducing innovative testing practices to enhance productivity and software quality.

WORK EXPERIENCE

CGI • 09/2022 – Present

QA Lead

- Led end-to-end testing efforts and improved software quality through comprehensive test coverage.
- Reduced testing cycle by 20% by automating regression tests using Selenium.
- Introduced Shift-Left Testing strategies, reducing defect leakage by 15% in production.
- Executed API testing with Postman, validating API responses and ensuring integration stability.
- Managed UAT testing, collaborating with business stakeholders to ensure end-user satisfaction.
- Conducted database testing and performance testing with JMeter to ensure scalability and reliability under load.

Systenity Infomedia • 12/2021 – 07/2022

QA Analyst (Intern) • Full-time

- Automated end-to-end tests using Selenium WebDriver, reducing manual efforts.
- Conducted API testing with Postman to ensure data consistency across services.
- Created and executed test plans, strategies, and test cases, resulting in better test coverage and faster releases.
- Collaborated with developers in an Agile environment to meet project goals and deadlines.
